Occupational field

Communications, Development and design of new prototypes, Trend spotter and opinion maker

Work experience

Dates 2007 - present
Main activities and responsibilities Communication Manager
Designed local narratives for change and citizen-driven processes for the translation of policy and plans into practical action and implementation
Developed and co-created methods for communicating with stakeholders in the right language, and how to work across sectors, both top-down and bottom up
Building on Samsø's success as Denmark's renewable energy island, developed the linguistics and designed a process on how to move forward in development and innovation and avoid drowning in the success of the past
Led the communication and engagement approach 'from best to next' in the Samsø community for the adoption of a new common vision for 2030
Led the communication for Samsø's pilot '100% renewable energy project'
Name and address of employer Samsø Energy Academy, Strandengen 1, 8305, Samsø, Denmark, www.energiakademiet.dk
Type of business or sector NGO in renewable energy and local development
